

# Blue Planet, Blue God

## The Bible and the Sea

**MIRFIELD  
CENTRE**

The ocean dominates the surface of the earth and is in the pages of the Bible too. The Bible offers a view of the sea and the life it supports which affirms its intrinsic value to God as a good, and indeed essential, part of creation.

At the same time, it also speaks perceptively of the sea's vulnerability to damage and change. The Bible's focus on the sea raises questions about economics and the interconnectedness of communities, whilst further references to the sea raise questions about our human-centredness and spirituality, and about our fear of chaos and disaster.
