

**Claire Gilbert** is the Founder of the Westminster Abbey Institute and is a regular visitor and long-standing friend to the Community. We are delighted to welcome her to lead this day

Her latest book, 'I Julian', published in April last year, is a fictional autobiography of one of the medieval world's most important women.

Former Archbishop of Canterbury, Rowan Williams, says of it: 'Written with profound insight, spiritual and psychological, and a rare sensitivity to the everyday world of the fourteenth century, 'I, Julian' is a brilliantly illuminating companion to one of the greatest works of spiritual writing in English.'

**The Community of the Resurrection** is a community of brothers, living together, seeking to follow the call of Christ in a common life of prayer, hospitality and learning in the monastic tradition founded by St. Benedict.

We gather five times a day to celebrate the liturgy and sing the daily prayers to plainsong, in service of God and for the healing of the world. This is a household of faith, which belongs within the Church of England and has friends across the globe. All are welcome here in the Peace of Christ.
